Steam Car Club of Great Britain

BULLETIN No. 13

December 22, 2013

**MERRY CHRISTMAS TO ALL
&
HAPPY NEW YEAR**

1910 MODEL 71, 20 HP STANLEY FOR SALE

1910 Model 71, 20 HP Stanley for sale. Restored about 7 years ago and steamed regularly. Correct non condensing engine converted to bronze crosshead guides instead of the ball bearings. Hard chromed piston rods. Correct gearing, 48-60 ratio. Correct lights professionally polished and clear coated. Original gauges. Two fuel system with pilot tank. Wire wound boiler by Alan Kelso. Penberthy reflex water gauge. Original pumps, fuel and steam automatics. Mostly new valves from Goold. All correct new fittings from Art Hart. 36" X 3 1/2" clincher tires on original 29 inch lock ring wheels. Very nice black leather upholstery. Nice top with roll down windshield. I was told this car's running gear came from a car discovered in Colorado many years ago by Wayne Leonard. The new body was made by Loren Burch perhaps 12 years ago. Nicely sorted out and ready to tour. More photos available.

price \$150,000.00 [US](#)
